2. Article 28

Exceptional measures of limited duration which derogate from the provisions of Article 10 and Article 25(1) may be taken by Poland in the form of increased customs duties.

These measures may only concern infant industries, or certain sectors undergoing restructuring or facing serious difficulties, particularly where these difficulties produce important social problems.

Customs duties on imports applicable in Poland to products originating in the Community introduced by these measures may not exceed 25% ad valorem and shall maintain an element of preference for products originating in the Community. The total value of imports of the products which are subject to these measures may not exceed 15% of total imports of industrial products from the Community as defined in Chapter I, during the last year for which statistics are available.

These measures shall be applied for a period not exceeding five years unless a longer duration is authorized by the Association Council. They shall cease to apply at the latest at the expiration of the transitional period.

No such measures can be introduced in respect of a product if more than 3 years have elapsed since the elimination of all duties and quantitative restrictions or charges or measures having an equivalent effect concerning that product.

Poland shall inform the Association Council of any exceptional measures it intends to take and, at the request of the Community, consultations shall be held in the Association Council on such measures and the sectors to which they apply before they are applied. When taking such measures Poland shall provide the Association Council with a schedule for the elimination of the customs duties introduced under this Article. This schedule shall provide for a phasing out of these duties starting at the latest two years after their introduction at equal annual rates. The Association Council may decide on a different schedule.

Article 29

If one of the Parties finds that dumping is taking place in trade with the other Party within the meaning of Article VI of the General Agreement on Tariffs and Trade, it may take appropriate measures against this practice in accordance with the Agreement relating to the application of Article VI of the General Agreement on Tariffs and Trade, with related internal legislation and with the conditions and procedures laid down in Article 33.

Article 30

Where any product is being imported in such increased quantities and under such conditions as to cause or threaten to cause:

- serious injury to domestic producers of like or directly competitive products in the territory of one of the Contracting Parties, or
- serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region,

the community or Poland, whichever is concerned, may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 33.

Article 31

Where compliance with the provisions of Articles 13 and 25 leads to

- (i) re-export towards a third country against which the exporting Party maintains, for the product concerned, quantitative export restrictions, export duties or measures having equivalent effect,

or

- (ii) a serious shortage, or threat thereof, of a product essential to the exporting Party,
- and where the situations above referred to give rise, or are likely to give rise, to major difficulties for the exporting Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 33. The measures shall be non-discriminatory and be eliminated when conditions no longer justify their maintenance.

Article 32

The Member States and Poland shall progressively adjust any State monopolies of a commercial character so as to ensure that, by the end of the fifth year following the entry into force of this Agreement, no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States and of Poland. The Association Council will be informed about the measures adopted to implement this objective.

Article 33

1. In the event of the Community or Poland subjecting imports of products liable to give rise to the difficulties referred to in Article 30 to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.
2. In the cases specified in Articles 29, 30 and 31, before taking the measures provided for therein or, in cases to which paragraph 3(d) applies, as soon as possible, the Community or Poland, as the case may be, shall supply the Association Council with all relevant information with a view to seeking a solution acceptable to the two Parties.

In the selection of measures, priority must be given to those which least disturb the functioning of this Agreement.

The safeguard measures shall be notified immediately to the Association Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

3. For the implementation of paragraph 2, the following provisions shall apply:

- (a) As regards Article 30, the difficulties arising from the situation referred to in that Article shall be referred for examination to the Association Council, which may take any decision needed to put an end to such difficulties.

If the Association Council or the exporting Party has not taken a decision putting an end to the difficulties or no other satisfactory solution has been reached within thirty days of the matter being referred, the importing Party may adopt the appropriate measures to remedy the problem. These measures must not exceed the scope of what is necessary to remedy the difficulties which have arisen.

(b) As regards Article 29, the Association Council shall be informed of the dumping case as soon as the authorities of the importing Party have initiated an investigation. When no end has been put to the dumping or no other satisfactory solution has been reached within thirty days of the matter being referred to the Association Council, the importing Party may adopt the appropriate measures.

(c) As regards Article 31, the difficulties arising from the situations referred to in that Article shall be referred for examination to the Association Council.

The Association Council may take any decision needed to put an end to the difficulties. If it has not taken such a decision within thirty days of the matter being referred to it, the exporting Party may apply appropriate measures on the exportation of the product concerned.

(d) Where exceptional circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or Poland whichever is concerned may, in the situations specified in Articles 29, 30 and 31, apply forthwith the precautionary measures strictly necessary to deal with the situation.

Article 34

Protocol No 4 lays down rules of origin for the application of tariff preferences provided for in this Agreement.

Article 35

The Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants; the protection of national treasures of artistic, historic or archaeological value or the protection of intellectual, industrial and commercial property or rules relating to gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

Article 36

Protocol No 5 lays down the specific provisions to apply to trade between Poland of the one part and Spain and Portugal of the other part.

2. Poland shall, during the transitional periods referred to in paragraph 1, not adopt any new regulations or measures which introduce discrimination as regards the establishment and operations of Community companies and nationals in its territory in comparison to its own companies and nationals.

Amendments may be made to these Annexes by decision of the Association Council.

Following the expiration of the transitional periods referred to in paragraph 1 (i), the Association Council may exceptionally, upon request of Poland, and if the necessity arises, decide to prolong the duration of exclusion of certain areas or matters listed in Annexes XIb, XIc and XIId for a limited period of time.

2. In respect of financial services, described in Annex XII c, this Agreement does not prejudice the right of the Parties to adopt measures necessary for the conduct of the Party's monetary policy, or for prudential grounds in order to ensure the protection of investors, depositors, policy holders, or persons to whom a fiduciary duty is owed, or to ensure the integrity and stability of the financial system. These measures shall not discriminate against companies and nationals of the other Party in comparison to its own companies and nationals.
